RE: IVIG THERAPY

Dear Provider,

Effective June 1, 2012, the Culinary Health Fund will be implementing an IVIG Therapy Plan Protocol for all new patient starts.

In collaboration with Catalyst Rx, Biofusion has developed a specific treatment protocol for IVIG therapy. This treatment regimen requires a team approach between patient, physician and the BioFusion pharmacist for patient education and adherence in order to ensure appropriate usage and achieve treatment success.

Beginning in June, if you wish to prescribe IVIG therapy to a Culinary participant, please call one of the following dedicated contacts at BioFusion:

Phone: 866-202-9552 or Fax: 866-794-4844

James Markis, PharmD	Ext. 204
Arlene Nakata, PharmD	Ext. 209
Alan Huber, PharmD	Ext. 203

Effective September 1, 2012, existing patients using IVIG therapy must be transitioned to the new protocol.

Thank you for continued support. If you have any questions regarding this change, please contact Kimberly Esau 702-892-7309.

Sincerely,

A handwritten signature in black ink that reads "Kim Voss".

Kim Voss
